

Energy Analysis for Window Films Applications in New and Existing Homes and Offices

Client

International Window Film Association

Project Location(s)

Energy Analysis for Window Films Applications in New and Existing Homes and Offices

Project Description

The purpose of this study was to demonstrate the cost-effectiveness of energy control window film in homes and offices, in order to make a case for inclusion in energy and green codes, programs and incentives in the state of California and expand opportunities for window film in the California market.
